

Summary	Description	Build #
<b>Upgrade Release August 30, 2016 - 1.0.14.33</b>		
Restored the Pre-2008 version of the DS-4410	<b>Enhancement:</b> Restored the Pre-2008 version of the DS-4410 to the reports menu to allow printing for older years.	1.0.14.23
Restored the Pre-2008 version of the DS-4410	<b>Enhancement:</b> Restored the Pre-2008 version of the DS-4410 to the reports menu to allow printing for older years.	1.0.14.23
Tax Roll of Adjusted Taxes - Combined	<b>Correction:</b> The report was not correctly reflecting changes made to tax bills after settlement.	1.0.14.30
DS-4410 report not including XHADJ PRE Exemptions	<b>Correction:</b> The DS-4410 was not correctly accumulating parcels with the Homestead Adjacent (XHADJ) PRE Exemption Type.	1.0.14.29
Denial Payoff Calculator displaying 'Returned to County';	<b>Correction:</b> Payoff calculations now reflect the current payoff prior to transfer to DT (previously was always showing that the Denial had been transferred to the county's control and delinquent taxes).	1.0.14.31
Restored the Pre-2008 version of the DS-4410	<b>Enhancement:</b> Restored the Pre-2008 version of the DS-4410 to the reports menu to allow printing for older years.	1.0.14.23
Modify Denial Notice for State Template changes	<b>Enhancement:</b> Made changes to the layout of the Notice of Denial of PRE to match updates to the state template for as of 05/16..	1.0.14.27
Modify Millage Rate Formatting on the Settlement Tax Roll Balancing Report	<b>Correction:</b> Adjusted the report to format the levy millage rate to a full 5 decimal places on the Settlement Tax Roll Balancing Report (previously was rounded to two places).	1.0.14.25
<b>Upgrade Release December 8, 2015 - 1.0.14.19</b>		
Tax Bills Update correctly identifying IFT/CFT exemption type	<b>Correction:</b> Printed tax bills were not correctly identifying the IFT/CFT exemption type associated with a parcel and would always display a half rate. Tax Bills now correctly show the millage rate based on New vs. Rehab exemptions.	1.0.14.14
DS-4410 Report update for values totaled on final page	<b>Correction:</b> The Detail portion of the DS-4410 now lists correctly the parcels and values totaled on the final page. Previously the filters were testing against information in the Parcel Value History records and now correctly reports based on the report criteria entered.	1.0.14.13
Parcel Value Record Update	<b>Enhancement:</b> When a Parcel Value record is created by the Tax Bill Edit process it now assigns a Change Reason of 'Tax Bill Edit'.	1.0.14.15
Adding a Parcel Value History record through the Edit Tax Bill process update	<b>Correction:</b> When adding a Parcel Value History record through the Edit Tax Bill process the new history record now correctly reflects the source of the change as 'Tax Bill Edit' (previously it was shown as 'Imported Value').	1.0.14.14
DS-4410 Report Update	<b>Enhancement:</b> When DNR properties are included in the DS-4410 the values accumulated ALWAYS come from the Winter Tax Bill, no matter which Tax Period the School Op levies are collected.	1.0.14.15
Print button in Tax Roll Setup Correction	<b>Enhancement:</b> The Print button in Tax Roll Setup now prints the appropriate report for the view currently being reviewed (Tax Unit Worksheet for Tax Unit General Info view and the Tax Levy Definitions Report for the Tax Levy Definitions view).	1.0.14.18
BS&A Import Names Street Suffix Update	<b>Correction:</b> The data synchronization process now reads the street type correctly from the 'Property Street Suffix' field in the import file.	1.0.14.17
Liber/Page & DocumentID Recordings Update	<b>Correction:</b> Recordings with a Liber that contains an Alpha character are not being added correctly. In most cases these recordings will be added as a DocumentID rather than as a Liber/Page value (editing and adding new parcels to the recording will allow for this and will still work correctly).	1.0.14.18
SET Settlement Summary Report Update	Changes have been made to simplify the determination of which townships retain the \$2.50 collection fee for SET in the summer on the SET Settlement Summary report. To implement this change you will need to set the 'Retain SET Collection Fee' switch in the Tax Unit record (Edit   Adjust System Preferences   System Config   Tax Units).	1.0.14.19
Special Levies Error Report Correction	<b>Correction:</b> The Import Special Levies Error Report was incorrectly reporting rejected import items in the Imported column, rejected items now appear correctly in the Rejected\$ column and totals.	1.0.14.19
<b>Upgrade Release October 26, 2015 - 1.0.14.12</b>		
Remote Support Link Update	Pontem has implemented a new remote support tool called "Go-To Assist." This new application is easier to install on your computer and provides new functionality over our previous product. A remote connection can be started through the "Join a Support Meeting" link located in the 'Overview' section of your software or from the "Join a Webinar" link located on the Pontem website Home Page ( <a href="http://www.pontem.com">www.pontem.com</a> ).	1.0.14.11

Assign Tax Bill Numbers Updated	<b>Enhancement:</b> 'Assign Tax Bill Numbers' has been modified to renumber bills correctly across Tax Unit lines when a Village spans Tax Unit boundaries.	1.0.14.1
Parcel Record Property Class Enhancement	<b>Enhancement:</b> Additional options are now available to allow property class selections to be either included or excluded.	1.0.13.8
Tax Bill Creation Enhancement	<b>Enhancement:</b> When adding a new Tax Bill, the software now allows the creation of a new tax bill even Parcel data is incomplete.	1.0.13.8
Tax Roll Setup   Tax Unit Control Definition Update	<b>Enhancement:</b> Village Tax Bills (Vxx) now have the ability to print messages from the Township Summer (Sxx) Tax Unit Control definition. This allows users to have a BOR message specific for the tax unit for a parcel (often useful when the village spans multiple tax units).	1.0.14.1
DS4410 Report Correction	<b>Correction:</b> A problem where the Roll Type was disabled and users couldn't select or deselect any roll types has been corrected.	1.0.13.23
Online Property Tax Search WebExport Update	<b>Enhancement:</b> Webexport for Pontem's Online Property Tax Search is now correctly showing the last sale recording. NOTE: WebExport preferences must be set for include recording types/sales for this to work properly.	1.0.14.12
QuickSearch for Receipts Updated	<b>Enhancement:</b> Accounting Dates in 'Quick Search for Tax Receipts' now populate with the current date.	1.0.13.12
New Report - Sales Labels for Avery 5161	<b>Enhancement:</b> Sales Labels (for Avery 5161 labels) have been added to the software.	1.0.14.8
Updated Multiplier Field for Importing District Codes	<b>Correction:</b> 'Importing District Codes' with either a 0 or nothing in the multiplier field will result in a 1 on the parcel record.	1.0.14.8
New Special Levy Prefix Added to Special Levies Tool	<b>Enhancement:</b> A new "Special Levy Prefix" field has been added to 'Import Special Levies' tool to allow the import to match the Levy Definition when the file only shows the levy code number.	1.0.14.8
Additional Address Fields to Import from BS&A Data Added	<b>Enhancement:</b> New BS&A fields in Parcel Record files are now imported correctly into Pontem TA.	1.0.14.8
Tax Bill Edit - New Parcel Values Record for Same Year	<b>Enhancement:</b> Values and Exemptions changed on a tax bill will now also automatically change on the parcel record for the same year.	1.0.14.7
Import Parcel Values Correction	<b>Correction:</b> A problem where 'Import Parcel Values' was not allowing the selection of a values file to use for import has been corrected.	1.0.13.18
District Statistics Report Correction	<b>Correction:</b> A problem with the 'District Statistics Report' that wasn't allowing DNR Roll parcels to be included on the report has been corrected.	1.0.14.3
<b>Upgrade Release June 26, 2015 - 1.0.14.1</b>		
Pontem Data Import Correction	<b>Correction:</b> An error related to an uninitialized variable when using the Pontem format to transfer data resulting from a Tax Bill with no Admin Fee record has been corrected.	1.0.13.2
Import Denial Tax Periods Enhancement	<b>Enhancement:</b> Pontem's Tax Administration software now allows you to import tax periods related to Denial Tax Periods (Dxx) when importing Settlement data.	
Payoff Calculator Correction	<b>Correction:</b> The 'Payoff Calculator' will no longer show a projected payoff amount beyond February/Settlement. Rather than show a payoff amount the software now will show the message: "Returned to County Treasurer in March."	
Property Description Features Added	<b>Enhancement:</b> A list of all historical property description changes now displays to the right of the property description. Selecting a specific version shows a list of the tax bills associated with that version of the description.	
Export Process Will Now Create Folders If Needed	<b>Enhancement:</b> When a directory required by the export process doesn't exist the system will now create it.	

Summary	Description	Build #
<b>Upgrade Release January 14, 2015 - 1.0.12.28</b>		
Parcel Name Import with PO Box Information Updated	<b>Enhancement:</b> Name Import procedures have been modified to handle PO Box information when included on the same line with the Street Name. Tax Bill Line 2 information is now being imported.	
Import Parcel Values Process Update	<b>Enhancement:</b> Invalid Street Direction values will now report as warnings and allow you to continue with imports rather than as an error and stopping the import.	
Settlement File Import Update	<b>Enhancement:</b> Updated the text of descriptions of errors and warnings listed when importing Settlement Files to make them more readable.	
Special Levy Import and TIFA Imports Update	<b>Enhancement:</b> Options for Display/Print of Warnings and Errors are now reporting correctly in Special Levy Import and TIFA imports.	

Import Special Assessments Tool Updated	<b>Correction:</b> Errors when Import Special Assessments from Excel and CSV files related to OLE and List Index errors have been corrected.	
DNR/PILT Tax Roll Report Updated	<b>Correction:</b> The DNR/PILT Tax Roll Report has been corrected to prevent missing levies on page breaks within the Tax Roll Statistics Report section.	
Denial Payoff Amounts Correspond to Payoff Dates	<b>Correction:</b> Denial payoff amounts now correctly correspond to the payoff dates entered into the report setup when overriding the computers defined payoff dates	
New Report: L-4175 Personal Property Statement	<b>New Report:</b> The L-4175 Personal Property Statement has been added into the Labels report group. This report is meant only to fill in the selected Mailing Address (from the Parcel Record) and Return Address (Assessor's address box from the Tax Unit record) in System Preferences.	
Corrected SQL Error in Tax Roll of Adj. Taxes - Combined Rpt	<b>Correction:</b> Corrected issue causing SQL Error when running the Tax Roll of Adjusted Taxes - Combined Report.	
Corrected AV Error When Posting E-Payments	<b>Correction:</b> An Access Violation during the Post E-Payment has been corrected.	
Corrected Data Fields in TRS and Quick Search	<b>Correction:</b> Corrected issue where Tax Roll Setup and Quick Search was not displaying data fields.	
Change to TA_PUBLIC Account Rights	<b>Enhancement:</b> User accounts with only "TA_PUBLIC" rights no longer have access to File   Import   Load Partial Tax Roll.	
Secure Recordings Will Not Export via Web export	<b>Enhancement:</b> When the most recent sale recording is identified as having a secured status (not public information) the export will set the Liber/Page & Sale Price values to blank or zero for the export.	
Correction on DS-4410 Report	<b>Correction:</b> Corrected an issue where the DS-4410 was adjusting the Taxable Value on the detail listing by the TIFA Base Value. This problem only affected the detail listing, the Summary page (the actual DS-4410) was correct.	
Corrected Error When 'Delete Districts Not in ASCII file' Was Selected	<b>Correction:</b> Corrected an issue that was triggering a SQL error when 'Delete Districts not in ASCII file' was selected.	
Manage Parcel Record - Values - Edit Button	<b>Enhancement:</b> If you try and edit/add a XNPHP exemption via MPR   Values Page   Edit Values, you will now get either: "This Parcel has no active Levy Exemptions; The Levy Exemption must be set by adding an active levy exemption record on the Levy Exemptions tab" or "This Parcel has active Levy Exemptions; The current Levy Exemption must be changed on the Levy Exemptions tab before the PRE Type may be changed."	
Master Data Sheet Repot Update	<b>Correction:</b> The Master Data Sheet Reports will not show Tax Bill Summary information for Tax Periods in a 'Pre-Levy' collection cycle. A new System Preference (TA Configuration   Property Records   Master Data Sheet also excludes Tax Bills prior to Settlement Date) will prevent Tax Periods from displaying until after Settlement.	
Street Address Verification Report Update	<b>Enhancement:</b> The Street Address Verification Report will no longer include retired parcels in the report results.	
Update to the Owner History Report	<b>Correction:</b> The Owner History Report now matches the Historic Names Tab on the Parcel record in TA.	
Update to Export Tax Rolls: Standard Format	<b>Enhancement:</b> Export Tax Rolls - "Standard ASCII Format" only including most recent Legal Description.	
Import Specials Update	<b>Enhancement:</b> Import Special Levies - Tax Levy Code setup information not required for the import is cleared to prevent confusion.	
New Report: County SET Settlement Summary Report	<b>Enhancement:</b> New County SET Settlement Summary report showing Amount Collected and Fee's Retained.	
New Parcel: 'Clone From' Option	<b>Enhancement:</b> When using the "Add New Parcel" tool can now clone Parcel information from the currently selected parcel in the Manage Property Records workspace.	
<b>Summary</b>	<b>Description</b>	<b>Build #</b>
Paid/Unpaid Report for TIFA Codes	<b>Enhancement:</b> Tax Bill Reports can now filter on multiple parcel identification districts using the Districts List. Parcel Districts are identified with a '-P' added to the end of the code (example 'DDLIB-P' to represent the 'DDLIB' Parcel District), TIFA/DDA districts with a '-T' and Levy Exemptions with a '-L'.	
Ability to Delete Existing Levy in Tax Roll Setup	<b>Correction:</b> The Tax Roll Setup procedure to delete an existing levy has been corrected.	
Email Reports Using Internet-based Services	<b>Enhancement:</b> Pontem Reports can now be emailed from web-based email accounts. Some configuration may be required, see the Pontem Online Training and Support Center for setup information.	
IPV Address Parser Options Updated	<b>Enhancement:</b> Modified the address parsing process to correctly handle more 'special case' addresses.	

New Parcel/Split Parcel Calendar Year	<b>Enhancement:</b> New Parcels/Split Parcels are put in a Calendar Year that is pre March Board of Review.	
New Report for Special Levy Import	<b>Enhancement:</b> An option to print only Warnings and Errors is now available as part of the Special Levy Import Report. You may now print a list of all imported specials or only those that report a Warning or Error.	
Warning Message for TIFA/DDA Capture Parcel Edits	<b>Enhancement:</b> If a Parcel is subject to TIFA/DDA Capture a notification message will display when the Parcel is split or the Tax Bill is edited.	
New Paid/Unpaid Reports for Settlement	<b>New Reports:</b> Paid/Unpaid Report for Settlement and Current time periods.	
Denial Tax Period Showing Checked P&I in Delinquent Tab	<b>Enhancement:</b> The Delinquent tab in Tax Roll Setup now shows the P&I checked by default for when adding to DT base when Transferred to Pontem DT.	
New Report: User Names and Permissions Report	<b>New Report:</b> User Names and Permissions Report. This report is printed from the security detail nodes of System Preferences.	
Updated Import Parcel Values for New Qualified Forest code	<b>Enhancement:</b> Modified Import Parcel Values to handle BS&A's new code for Qualified Forest (PRE Type 'A').	
Formatting Update for Legal Descriptions	<b>Enhancement:</b> Corrected the formatting of legal descriptions when concatenated for export.	
Import Settlement Files Update	<b>Enhancement:</b> Enabled UnitClass procedures (customized class changing for units with class definitions different than the counties) for Import Settlement Files.	
Liber/Page Now Accepting More Characters as Delimiters	<b>Enhancement:</b> The Liber/Page lookup process will now accept more characters as Liber/Page delimiters. Separator characters of '/', ':' and '\' may now be used.	
Tax Bill - Original/Reprint Update	<b>Enhancement:</b> The 'Tax Bill - Original/Reprint' and the 'Tax Bill - Original/Reprint Alternate Style' print original/unpaid value amounts on the tax bill and do not reflect any payments or BOR changes posted against the tax bill.	
WebExport Only Exports Data with a Tax Roll Date Defined	<b>Enhancement:</b> Tax Bill information will not be exported via WebExport when there is no Tax Roll Date defined in Tax Roll Setup.	
Tax Bill Change Report Shows Changes to Delinquent Tax Values	<b>Enhancement:</b> The Tax Bill Change Report will now show changes to Delinquent Tax values that were affected by the tax bill edit (Delinquent Base Tax & Base Penalty and Interest).	
User Interface Corrections for Windows 7 & 8	<b>Enhancement:</b> Various UI issues have been corrected to work better in Windows 7 and 8.	
Quick Search Procedures Have Been Updated	<b>Enhancement:</b> Quick Search procedures have been optimized to provide better performance when moving from one Primary Task to another.	
<b>Upgrade Release May 21, 2014 - 1.0.11.15</b>		
Update to Past Due Summer Tax Notice	<b>Enhancement:</b> The Past Due Summer Tax Notice Report now defaults to the most current Summer Tax Period.	
Update to DS-4410 Report	<b>Enhancement:</b> Active Duty Military PRE exemptions are now accumulated into the Principal Residence/Qualified Ag/Qualified Forest exemption column on the DS-4410.	
New Levy Exemptions Available	<b>Enhancement:</b> New Levy Exemption types for Public School Academy (PA 277 of 2011) and Development Property (PA 494 of 2012) have been added. For more information see 'Levy Exemption Setup and Use' in the Online Training Center.	
IPV - A Change in a Parcel's XNPHP Levy Exemption	<b>Enhancement:</b> If an import file designates a change in a parcel's XNPHP Levy Exemption status a warning message will display. Changes to the status of this Levy Exemption require additional information that is not supplied by the ASCII files being imported and therefore the Levy Exemption record must be edited manually.	
Tax Rolls in "Pre-Levy" Status	<b>Enhancement:</b> Tax Rolls are considered to be in a 'Pre-Levy' status prior to the Tax Roll Date, Pre-Levy Tax Rolls are displayed in the Prepare Tax Bills workspace only and will not be viewable in the Tax Bills & Collections workspace until on/after the Tax Roll Date.	
<b>Summary</b>	<b>Description</b>	<b>Build #</b>
Tax Unit Data Worksheet Enhancement	<b>Enhancement:</b> When printing the Tax Unit Data Worksheet the list of available Tax Units will reflect the Tax Period selected.	
Update to E-payment .csv Import Files	<b>Enhancement:</b> Processing E-payment (.csv) files will skip the first record when that record contains only header information.	
New Parcel General Date: Date Created	<b>Enhancement:</b> A Create Date is now tracked for all new Parcel records, this date is assigned the current date on the day the record is actually created (as opposed to a Split Date which would reflect the date of the actual split).	
Import Parcel Value Process Improved	<b>Enhancement:</b> The Load Parcel Values process has been modified to make sure that when the procedure has been canceled the split information from that import is correctly removed.	

Update to Tax Roll Reports	<b>Enhancement:</b> Acreage has been added to the Tax Roll - Portrait and Tax Roll - Landscape Reports.	
Update to Parcel Notes Alert Notification	<b>Enhancement:</b> Double-clicking on the Alert! notification in the Parcel Header above the workspace list view now displays the Manage Notes Tool.	
Correction for Denial Tax Bills	<b>Correction:</b> Denial Tax bills were showing an extra detail line not associated with the denial tax period	
Tax Bill Edit Button Disabled in Prepare Tax Bills After Tax Roll Date is Set	<b>Enhancement:</b> If Tax Roll Date is set, newly created tax bills showing in Prepare Tax Bills, will not be able to be edited via the Edit Tax bill button.	
<b>Upgrade Release March 6, 2014 - 1.0.11.3</b>		
Denial Bill Payoff's Enhancement	<b>Enhancement:</b> Denial Bills will no longer print payoff's for dates beyond the date of delinquency (March 1st the year following the Denial), instead the notation 'Delinquent' will be printed in place of the payoff.	
New Report: Tax Roll of Adjusted Taxes-Combined	<b>New Report:</b> Tax Roll of Adjusted Taxes-Combined allows the user to print one roll for parcels with any bill adjustments for any tax period within a year.	
Add New Parcel Fields Availability	<b>Enhancement:</b> If "Create 20xx Values for tax bills" is checked. If it is checked, then allow all fields to be edited. If not checked, grey out fields like Assessed \$, Taxable \$, and others.	
Error and Warnings for Settlement Import	<b>Enhancement:</b> The Import Errors and Warnings Report will note if property class codes found in the file do not exist in the county Property Class Table. The user may then use the report to update the class code table or reject the file, instead of reviewing the actual data file for these codes.	
<b>Upgrade Release February 13, 2014 - 1.0.10.31</b>		
Parcel Master Data Sheet Report Enhancement	<b>Enhancement:</b> Property Descriptions on the Parcel Master Data Sheet have been modified to only line wrap on a space in the description.	
Print button in Manage Property Records Enhancement	<b>Enhancement:</b> The Print button in Manage Property Records now will correctly print for new/child parcels.	
Parcel Master Data Sheet Report Enhancement	<b>Enhancement:</b> The Parcel Master Data Sheet reports have been modified to show values for both Certified and Final status to help show any changes that have happened through the year to Assessed/Taxable Values and PRE Exemption information.	
<b>Upgrade Release January 20, 2014 - 1.0.10.27</b>		
Levy Exemptions Warning Message Updated	<b>Enhancement:</b> Levy Exemptions that span years now show like this: 'Warning: Tax Bills for S05 thru W13 May need Exemption corrections'	
New Denial Settlement Interest Summary Report	<b>New Report:</b> The Denial Settlement Interest Summary report is designed to show the interest breakdown for the unpaid Denials being rolled into Delinquent Tax; in the same way the interest is broken-down for Denial payments reported on the Denial Interest Summary - Form 4142.	
Tax Bill History Report Updated	<b>Correction:</b> Tax Bill History Report is no longer showing Tax Bills in the Calculation Process (Pre-Levy).	
Saved Images Reflect Sections of the Parcel Number	<b>Enhancement:</b> Changed the directory structure for saved images and documents to reflect sections of the Parcel Number.	
Levy Exemptions Tab in MPR   Values Page	<b>Enhancement:</b> Added a Levy Exemptions Tab on the Parcel   Values page	
Denial Bill - Yet Due "Auto-Calc" Corrected	<b>Correction:</b> Denial Bill - Yet Due "Auto-Calc" function fixed to allow desired dates to be used and calculated by.	
Tax Roll Setup UI Enhancement	<b>Enhancement:</b> New UI layout in Tax Roll Setup - New Tab layouts for Levy List, General, and Restrictions.	
Default Receipts Now Work Without Being Assigned in System Preferences	<b>Enhancement:</b> You no longer need to assign a particular receipt in Preferences, as the default receipt will now work.	
Tax Bill Change Report / Standard Receipt Updated	<b>Correction:</b> The label near the bottom was changed from "County Collection Fee" to "Administration Fee"	
<b>Summary</b>	<b>Description</b>	<b>Build #</b>
Multi-monitor Fix	<b>Correction:</b> Display of the work space and Quick Search has been corrected when using a secondary monitor.	
Additional Data Added to Tax Bill Original/Reprint	<b>Enhancement:</b> Added: New row labeled Interest Starts, Added Acres, and Added treasure's phone number.	
Manage Tax Bill Flags Has the Option to Apply the Flag for All Tax Unit(s)	<b>Enhancement:</b> The Manage Tax Bill Flags has the option to apply the flag for All Tax Unit(s) instead of having to apply the flag on unit by unit method.	
Export Appraisal Files: File Naming Options	<b>Enhancement:</b> Export Appraisal Files export now creates unique file sets for each tax unit exported (similar to export tax rolls)	

Editing Document ID or Book/Liber Page Numbers Now Allowed	<b>Enhancement:</b> Edit on the Recordings page now allows the user to correct the Document ID or the Book/Liber and Page numbers. This was not previously allowed.	
New Parcel Creation in TB&C Prompts to Create the New Parcel in MPR First	<b>Enhancement:</b> If you try to create a new parcel in TB&C before creating it in MPR, you will be prompted to create the new parcel in MPR.	
<b>Upgrade Release November 1, 2013 - 1.0.9.71</b>		
Specials Import Audit Report - List Only Error Items	<b>Correction:</b> The Import Special Levies audit report now only includes errors per customer request.	
Interest Rates on MTT Judgments - Notification of Change from State	<b>Enhancement:</b> The Tribunal Calculator found under Tax Bills and Collections   Tools has been updated with the new interest rates for 2013.	
Flag Tax Bill As: In Bankruptcy	<b>Enhancement:</b> You can flag a tax bill as being in Bankruptcy to prevent it from printing and able to filter in reports by bankruptcy.	
Notes added to TRS   Tax Levy Definitions	<b>New Feature:</b> To fulfill customer request: A Notes: field has been added in TRS  Tax Levy Definitions. It is available at each levy definition record.	
Recording Comment Field	<b>Correction:</b> Comment Field now working after re-entering deleted Recording.	
<b>Upgrade Release June 3, 2013 – 1.0.9.21</b>		
New Treasurer Name and Address System Preference Option	<b>Enhancement:</b> A System Preference has been added for Tax Units to update Treasurer Name and Address to apply to the Tax Roll Setup when there is a new Treasurer.	
Tax Bill Export   MI Print Service Update	<b>Enhancement:</b> Reports: Tax Bills: Tax Bill Export File - Print Service now has the Prior Year Delinquent Message as the final column.	
Payoff Calculator Moved to New Location	<b>Enhancement:</b> The Payoff Calculator has been moved from the TBC   Tools tab to a button on the TBC  Tax Bill Detail.	
Denial Bill Edit in Post-Settlement Cycle	<b>Correction:</b> You know will get a Warning message when trying to edit a Denial Bill that is in Post-Settlement Cycle instead of an Error that wouldn't allow you to continue with the edit.	
Parcel Splits Report – TIFA Parcel Info Updated	<b>Enhancement:</b> Parcel Splits Report updated to show if TIFA record exists on Parent Parcel. Report will also show the child parcel if it doesn't have any value assigned.	
New Delinquent Tab in Tax Roll Setup for Delinquent Message	<b>Enhancement:</b> New Delinquent Tab in Tax Roll Setup for new Delinquent Message that will appear on current tax bills for prior tax period delinquent bills.	
New TIFA/DDA Parcel Warning Message	<b>Enhancement:</b> New TIFA/DDA Warning message when trying to edit the values of a TIFA/DDA parcel.	
New Delinquent Tax Bill Message Auto-updates When Cloning a Tax Period	<b>New Feature:</b> When Cloning a tax period in Tax Roll Setup, the new Delinquent Message will update to current tax period - 1 for the Delinquent Tax Bill Message that appears on the Delinquent Tab.	
Parcel Splits Report – Show Only New Parcels	<b>Enhancement:</b> Parcel Splits Report now has the ability to show only new parcels.	
Taxable Value Data Items Report Update	<b>Enhancement:</b> Taxable Value Data Items Report will now print to an Excel file with proper formatting.	
Tax Bill History Report Updated	<b>Correction:</b> Tax Bill History Report is showing the DELINQUENTID field and should have. This has been corrected.	
DS4410 Report Updated	<b>Correction:</b> When running a DS4410 Report for a Village....you would get a SQL Error. This has been corrected.	
New Tool for Flagging Tax Bills for a Delinquent Bill in Prior Year	<b>New Tool:</b> For flagging tax bills as having had a tax bill go delinquent in the prior year. This will flag the bill for the required notification required by PA 482 of 2012.	

Summary	Description	Build #
<b>Upgrade Release March 5, 2013 – 1.0.8.15</b>		
Add This to DT Base Check Box for Interest in Tax Roll Setup	<b>Enhancement:</b> A check box has been included under Add this to DT Base: so the user has control of whether interest is included as part of DT Base. This box defaults to checked to include the interest in base.	
Grace Period for Denial Tax Bill	<b>Enhancement:</b> Denial Bill: Allow for Grace Period when generating Payoff Dates.	
Denial Interest Distribution Report and Denial Interest Summary Report Updates	<b>Correction:</b> Both the Denial Interest Distribution Report and the Denial Interest Summary (4142) now calculate the interest distribution for each denied year separately.	

New Configuration for Names Management	<b>New Feature:</b> New System Configuration for Names Management to either allow or never allow punctuation in names. This will affect name edits and Import Parcel Values.	
Millage Mismatch on RenZone/IFT Combinations	<b>Enhancement:</b> Tax Bills that have a combination of exemptions (Ren Zone & IFT) will not import correctly without reporting a Millage Mismatch error.	
<b>Upgrade Release November 13, 2012 – 1.0.7.36</b>		
Assessment Roll Alpha Index Report Enhancement	<b>Enhancement:</b> The Assessment Roll Alpha Index found under the Parcel Listings report menu has an option to print the property description or not. Transfer date and exemption type codes columns have been added to the report.	
Tax Tribunal Calculator Update	<b>Update:</b> Added two new rates to the MTT Interest Table as of 1/1/2012, 1.09% and as of 7/1/2012, 4.25% for use in the TBC   Tools   Tribunal Calculator.	
Added New Tax Roll Export	<b>Enhancement:</b> Added new Tax Roll Export Format: BS&A Format.	
PILT Pay List Enhancement	<b>Enhancement:</b> Upon Cancel at the Tax Bill Payment List after posting payments using the PILT Pay List option; the tool to post PILT Payment Adjustments will activate. This will enable the user to adjust the existing partially paid PILT bills to \$0.0.	
Parcel Master Data Sheet Report Enhancement	<b>Enhancements:</b> The Parcel Master Data Sheet has a Report Message printing below the title header. The user can change the message by editing the Parcel Master Data Sheet options in Edit   Adjust System Preferences   Reports   Report Messages	
Added More Fields of Tax Unit Info in System Config	<b>Enhancement:</b> Edit   Adjust System Preferences   System Config   Tax Units (and Villages) contain fields for phone, fax and e-mail address for each unit or village record.	
<b>Upgrade Release August 24, 2012 – 1.0.6.95</b>		
Tax Roll Setup Levy Filtering	<b>Enhancement:</b> Tax Roll Setup - filtering out levies that are restricted by Tax Unit.	
Export Tax Rolls - Standard ASCII File Update	<b>Enhancement:</b> It will use the Mapping preferences in the Import/Export Preferences for returning a roll to a non-Pontem database with the same Levy ID as imported into Pontem TA.	
Historical Names Tab	<b>New Feature:</b> Names and Addresses Page now contains a tab for Historical Names.	
<b>Upgrade Release June 7, 2012 – 1.0.6.69</b>		
Ability to identify and filter parcel in Bankruptcy	<b>New Feature:</b> A new System Preference has been added which enables the tax bills to be edited and identified as 'In Bankruptcy'. Filtering has been enhanced to include or exclude the bills from reports and tax bill printing.	
New Alternate Tax Bill	<b>New Feature:</b> New "Alternate Style Tax Bill" to choose from.	
Same As Owner Button Available in Manage Denial Bills	<b>Enhancement:</b> The Same as Owner button is available in Manage Denial Bills to assure denial bills contain the same user contact record when required.	
Link to Parent / Child Records in MPR	<b>Enhancement:</b> Parent Parcel in MPR is now a link so user can traverse to parent's parcel record. Once at Split History on Parent records the child parcel number is a link back to the child record.	
In MPR: RenZone Grid = Levy Exemptions	<b>Enhancement:</b> In Manage Property Records, the RenZone Grid = Levy Exemptions.	
Tax Roll Setup Enhancement	<b>Enhancement:</b> Once all the tax rolls for all the tax units are completed the Copy to All button at the Tax Roll Date field provides a mechanism to populate the Tax Roll Date to all records for the same tax period.	
New PILT Pay List Option to Pay DNR Bills	<b>New Feature:</b> New PILT Pay list option to pay DNR Bills.	
Setting or Removing of Settlement Date in Tax Roll Setup	<b>Enhancement:</b> Setting or removing the settlement date on the Winter tax roll set up for a unit will cause the same to happen on the denial tax period of the same year and same unit. Import Settlement Files and freezing the settlement totals will also update the settlement date in the winter and denial Tax Unit General Info for the same year and local unit.	
<b>Summary</b>	<b>Description</b>	<b>Build #</b>
Web Export Parcel Type Now Included in Parcel.WEB	<b>Enhancement:</b> Web Export - Parcel Type now populated from the Property Type of the current parcel current class.	
Added "Agent" Name to Receipt for e-Payments	<b>Enhancement:</b> Receipts created via e-payment to include Agent Name in comment field.	
Parcel Master Data Sheet Report Enhancement	<b>Enhancement:</b> Turned on the blank when zero switch for the date fields for the parcel master data sheet.	
New TIFA/Districts Import	<b>Enhancement:</b> Allowing user to import TIFA/Districts from csv, tab, fixed length or excel files.
